

ETN training webinar on

# Open protocol in aquatic telemetry

Donna Kehoe and Dave Gambin (Lotek),

Erik Høy (Thelma Biotel) &

Marlin Gregor (Sonotronics)

**October 5<sup>th</sup>, 4:00 PM CET, Zoom**

The webinar will be broadcasted via ZOOM. Please, **register** for the webinar [here](#), by September 28<sup>th</sup>:

<https://us06web.zoom.us/meeting/register/tZAvfuuprz0oGdC7wtqiDOMIWW4UDHb5iMKk>

The compatibility in acoustic telemetry is essential for achieving common goals and effective collaboration in aquatic telemetry. Manufacturers together with ETN researchers work hard on possibility of mix and match telemetry equipment from different manufacturers.

Please visit this page to get a better overview of [this big topic](#).

The webinar will cover the following topics:

- Introduction to open protocol topic.
- Evolution of open protocol.
- Overview of different types of operating systems and their compatibility across manufacturers.
- Importance, pitfalls, and costs of open protocol.
- Collaboration between manufacturers and researchers, open protocol testing.
- Future prospects in open protocol.
- General discussion.
- Q&A with webinar attendees.
